

# Formel-Q Induction Training

## Course goal

Goal of this induction training is to present VW general requirements for serial parts suppliers.

Therefore, if your company is involved in Volkswagen Group's projects or develop serial parts to one of Group's site it is mandatory to have in your organization trained employees who can cover the duties as it are stipulated in Formel-Q norms and related documents.

## Themes:

Course theme:	
1	A view at a glance – Formel Q. Links with Volkswagen general requirements for serial parts suppliers.
2	Volkswagen Group Customer specific requirement (Formel-Q Konkret – Quality management agreement between VW group and its suppliers)
3	Methods for quality evaluation and risk assesment within supply chain
3.1	Supplier Quality Capability general or for software (Formel Q- Capability)
3.2	VW Group procedure for product and process qualification (Formel-Q New Parts qualification program)
4	Continous improvement as a Volkswagen supplier

## Course objective

- At the end of this induction training participants will posses skills to be aware of Volkswagen's documented requirements (Formel Q).
